

PETROHRADSKA KOLEKTIV

RESIDENCY PROJECT 2020

INTRO.

Since the year 2016 the artists run initiative Petrohradska kolektiv and the Jedna Dva Tri gallery are organizing the Artists in Residence program and with this year's global setting of the pandemic situation with the Covid-19, we've decided to open the program also to czech artists and artists living/ studying/ creating in Czech republic.

ARTIST IN RESIDENCE

Artists in residence program is one of our key activities as a cultural exchange, dialogue and view on art from different perspectives is one the key features of expanding our local horizons of knowledge.

Our residency project is an opportunity for independent research, self development or developing your own project, artistic exchange, networking or experimenting.

Our goal is to support individuals from various fields of audiovisual art/ new media and contemporary art; researchers in the field of art; architects, designers. Same as recent years with international participants we prefer artists willing to stay and work on site for most of the time to maximize their focus.

The concept of the residency is meant to be a medium for realization of art projects and experiments leading to exhibition in Jedna Dva Tri Gallery.

PETROHRADSKÁ KOLEKTIV

Petrohradská kolektiv is an artist-run initiative with its own production, dramaturgy, and spaces for experimental and contemporary art since 2015, giving artists room for their work, freedom and attention.

Our activities are mostly focused on exhibitions and education, live art and residency for local and foreign artists. Petrohradská kolektiv wants to contribute to the value of art in society by supporting, presenting and producing projects not only focused on contemporary arts.

JEDNA DVA TŘI GALLERY

Our gallery was launched in March 2016. Activities include solo exhibitions of the youngest generation of Czech artists and foreign residents of the Petrohradská kolektiv Residency Project, thematic lectures and discussions. The main focus is working with space based on experimental environment. Specifically, we aim for authorial exhibitions and create a new work directly for the gallery.

The result is exhibitions responding to gallery space, even though the theme remains. The challenge is to engage the general public and mediate it with contemporary art, in order to connect people, ideas and practices on the local and international level. Naturally, we strive to engage and then share exploratory creative processes. We see art as a mutual resource, a catalyst for innovation and a means of connectivity

WHAT DO WE OFFER

The basic idea of Petrohradská compound was to bring new environment for effective work in pleasing environment, place where you can focus on your projects but also give yourself a small break without the need of leaving the place all the time.

During the whole residency we are providing production, technical, promotive, curatory support and assistance. The cost of travel and material is covered for maximum fee of 200 euro.

For work purposes are designated 3 private studios for artist in residency program, on the top of that access to basic equipped workshop, photo studio, sound recording studio or rendering workstations upon request with presence of our employee.

As for living at Petrohradská - we are providing each resident one private room in a shared apartment consisting of 3 bedrooms, kitchen, entrance hall and bathroom. Apartment is located on ground floor of the building next to Petrohradská kolektiv's facilities, office and studio.

Next in line is the exhibitional space, which is the space of Jedna Dva Tři gallery located in the courtyard of the compound. The floor plan with technical rider upon request.

HOW TO APPLY

Our open call is announced on non-periodic basis once a year, you can subscribe for our newsletter or check our social media channels. Our committee consists of Petrohradská kolektiv members, external curators of Jedna Dva Tři gallery and others and allied professional artists.
