

POCKETART collective / Sabina Bočková and Johana Pocková are looking for 8 female dancers for their new project with working title „*Fairy Tales*”.

“We want to create a fairy tale for ourselves. A space where we can look at all these different aspects of women's search for fulfillment to find (at least for a little moment) a happy ending. We are wondering what role fairytales and fantasies - clear stories where everything end's well, play in our crazy and multi-layered world. What is today's woman's happy ending?”

The project will be held during several rehearsing periods from February till November 2023 with residencies mostly in the Czech Republic.

We are looking for 8 female dancers with a strong dance background and performative presence on stage. We are open to all ages.

Workshop/audition will take place on the 1st and 2nd of November in Krenovka Studio in Prague (address: Husitská 22, 130 00 Praha 3-Žižkov).

If you are interested in the project and you would like to meet us in Krenovka please send us an email to natalie@pocketart.cz with a description of your journey in dance and a motivational letter which includes answers to two questions:

- Why would you like to work with us?
- What is your female perception of the real life and of the life how it could be?

Deadline to apply: 23.10.2022

This project is a Big Pulse Dance Alliance coproduction, coproduced by partners International Dance Festival TANEC PRAHA (Czech Republic - Prague), Julidans (Netherlands) and Séismograf festival (Catalonia - Spain), co-funded by the Creative Europe programme of the European Union.
